

Leverage bowling machine at my new house is absolutely fantastic.

I found this machine far superior to any other bowling machine I have ever used. The amount of variations it has is something special and its backed by a remarkable consistency.

I am really happy with this fabulous bowling machine and so is my son.

I wish Leverage sports technologies all the very best in future.

Mr. Sanjay Bharadhwaj- Coach of Gautham Gambir

Leverage Bowling Machine is undoubtedly the best. In my opinion, Leverage bowling machine reduced the gap between a human bowler and a bowling machine. This is for new generation cricket and a must have tool for a coach/player . It provides great practice!"

"An extremely user friendly machine. By using this machine, a novice to elite cricketer can improve his skills by leaps and bounds in a relatively short duration.

One of the best tools I have ever seen to enhance performance for batters, it also simplifies coaching for coaches. I highly recommend this one ...you will never find a machine which is impeccable in pace, swing, spin & accuracy. It simply simulates the magic of a match situation. Its more than a pack of high quality bowlers! "
